SRUSHTI UPADHYAY

PRODUCT DESIGNER

India · Portfolio · LinkedIn · srushtiupadhyay@gmail.com · +91 8108790810

PROFILE

Product Designer with 5+ years of design experience and 9 years across design and engineering, specializing in complex B2B workflows, information architecture, and data-rich enterprise products. Experienced in interaction design, user research, prototyping, design systems, and translating business requirements into usable product experiences. Brings a strong understanding of technical constraints and cross-functional collaboration to deliver thoughtful, implementation-ready designs.

EXPERIENCE

Product Designer II Mar 2024 – Apr 2026

MATC Group

- Led design for a B2B assessment platform, including the manager review and scoring flow, replacing a client's spreadsheet and email process and cutting manual effort by an estimated **30%**. Guided the junior designers on the team.
- Designed the Decision Hub, which pulls scattered portfolio data into one place so decision makers can compare and decide.
- Reorganized multi step workflows and clarified system states using user feedback, and built a reusable Figma component library with engineering.
- Worked with product stakeholders and engineers on requirements and technical tradeoffs, taking designs from wireframes and prototypes to production ready UI. Used Figma Make for early concepts.

Product Designer (Part-time) Jun 2025 – Oct 2025

EmendoAI

- Coordinated three product designers and owned design deliverables. Helped shape two AI agents, one for everyday project work and one for finance.
- Designed and shipped Ask Me Anything, a text and voice AI interface. Project setup was an estimated **50%** faster by text and **80%** faster by voice.
- Redesigned the subscription and onboarding screens around clearer feature groups, and reviewed competitors' cancellation flows to find gaps.
- Worked cross functionally with founders, product managers and engineers on priorities and UX fixes, taking requirements end to end through wireframes, prototypes and delivery.

Boston University

UX Designer Feb 2021 – Jan 2024

- Owned UX and interaction design for degree planning apps used by students and faculty advisors, turning complex degree requirements into clear semester by semester workflows.
- Redesigned Degree Map with auto save, drag and drop validation and clearer semester states. Bug reports fell by about **80%**.
- Worked with advisors and developers on requirements and constraints, then designed and built responsive interfaces from prototype through production.
- Used user feedback and support requests to find where users got stuck in the workflow.

Web Developer Feb 2019 – Jan 2021

- Designed and built the Course Sequencing Tool for degree planning, working with stakeholders and developers.

Web Developer Jul 2016 – Jul 2017

SME MaXX

- Built a customized cashback platform, translating product requirements into web functionality in collaboration with product management.

UX Designer/Developer Jun 2015 – Jun 2016

Freelance

- Designed and built a Patient Monitoring System for a private clinic, replacing an error prone spreadsheet process and reducing billing time by **60%**.
- Worked with healthcare experts and clients to translate requirements into interface designs and database structures.

EDUCATION

M.S. Computer Science Sep 2017 – May 2019

University of Massachusetts Dartmouth

B.E. Computer Engineering Jun 2011 – May 2015

Don Bosco Institute of Technology, Mumbai

SKILLS

Product & UX Design Product Design, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, User Research, Usability Testing, Design Systems, Responsive Design, Visual Design, Accessibility, Product Strategy, Stakeholder Collaboration, Design-to-Development Handoff

Design & AI Tools Figma, Figma Make, ChatGPT, Stitch, Claude, Miro, Adobe Photoshop

Collaboration & Delivery Notion, Confluence, Asana, Slack, Agile/Scrum

Frontend Knowledge HTML5, CSS3, JavaScript, React, TypeScript, Tailwind CSS, Bootstrap
